- CSS and JavaScript
- PHP
- Flutter and Dart
- Blender
- Git
- Java, Python, C++, MySQL

AWARDS RECEIVED

-  Agile Software Development:
Scrum for Developers,
LinkedIn Learning (2021)

PERSONAL PROFILE

I believe that no problem is too big to be solved. I simplify implementation by breaking down the problem to simple goals. My interests are within Machine learning with python and tensorflow, with a proven experience in mobile app development (Android and iOS) using flutter, and web applications with PHP Laravel framework.

WORK EXPERIENCE

Unique Tracking

Junior Developer and Tech support | May 2021 - July 2021

- Ensured that GPS gadgets were tracking the correct time and location of the respective vehicles.
- Worked on a certificate system that increased efficiency in producing tracker installation certificates.

PROJECTS

Ushindi Sacco

Fullstack Engineer

- Built a self-service portal to make it easier for SACCO members to access services at the comfort of their homes. The project utilized PHP Laravel Framework and M-Pesa API.
